

The player was walking inside King Mongkut's University of Technology Thonburi, but suddenly the lightning struck at her, make her panic and closed her eyes instantly. When the sound clam down, The player decided to open her eyes and found herself in front of School of Information Technology building.

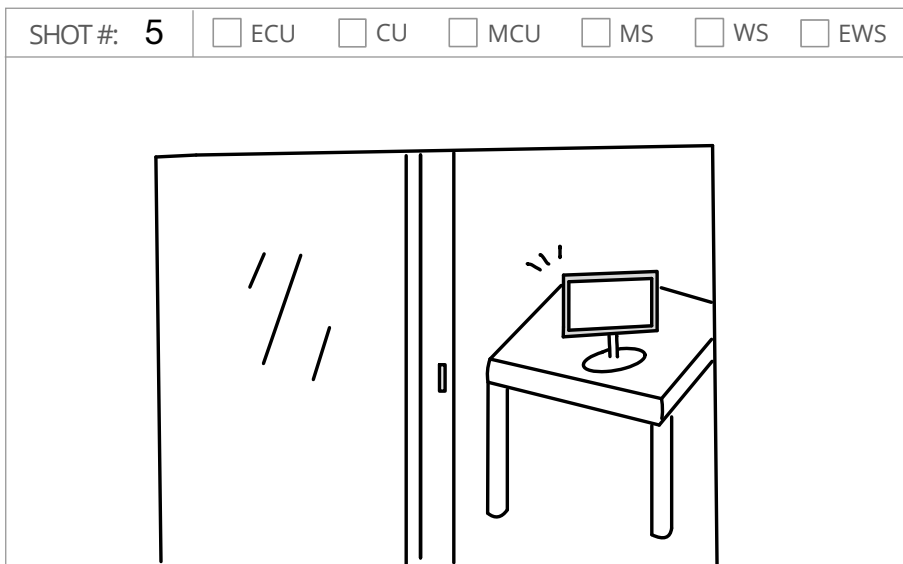

The player looked around building and see that it's very dark. The only way to continue walking is to walk into the School of Information Technology building. When the player entered the building, she were shocked again because she found a large blood stain, with the torn book beside it, the player wondered, then picked up the book and looked at it, And noticed that it was a manual for the use of this building.

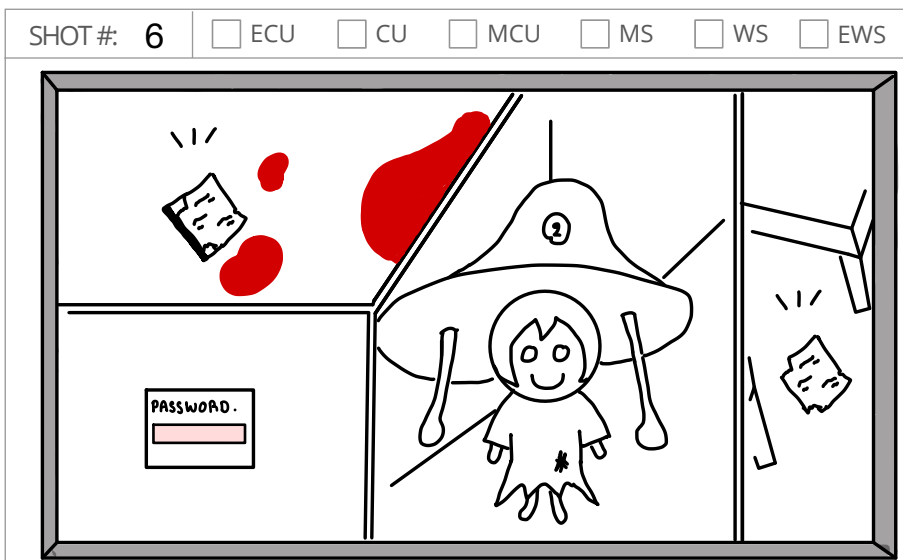

But the manual was torn to the point of being unable to read the contents of the book. Player look around and see the elevator and the door that is nearby. And also found that the elevator is broken, The door cannot be opened and beside the door there is some machine to enter the password. if the player enters the wrong password more than 3 times, the monster will appear immediately.

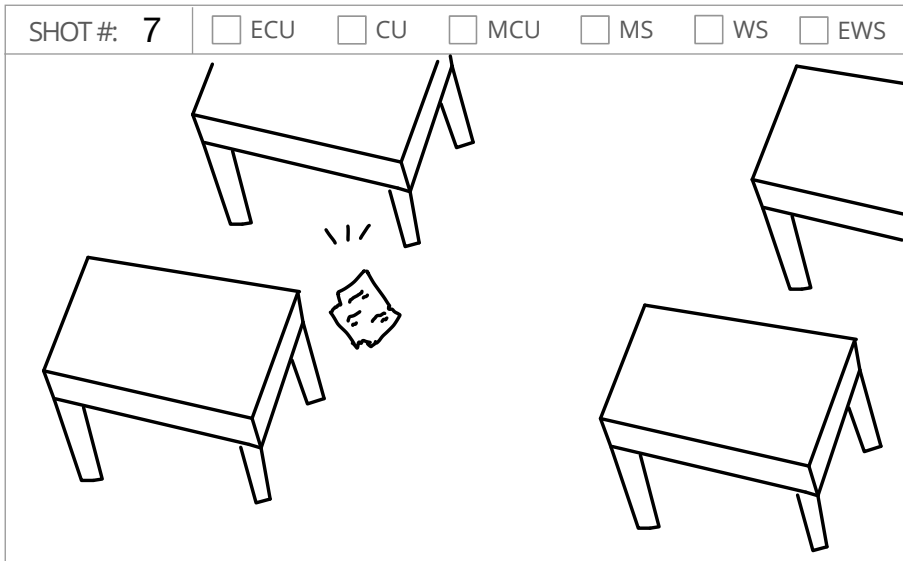

The player can walk around on this floor, with each floor having many rooms but all of which are empty, quiet and devoid of people, There is no clue of this situation.

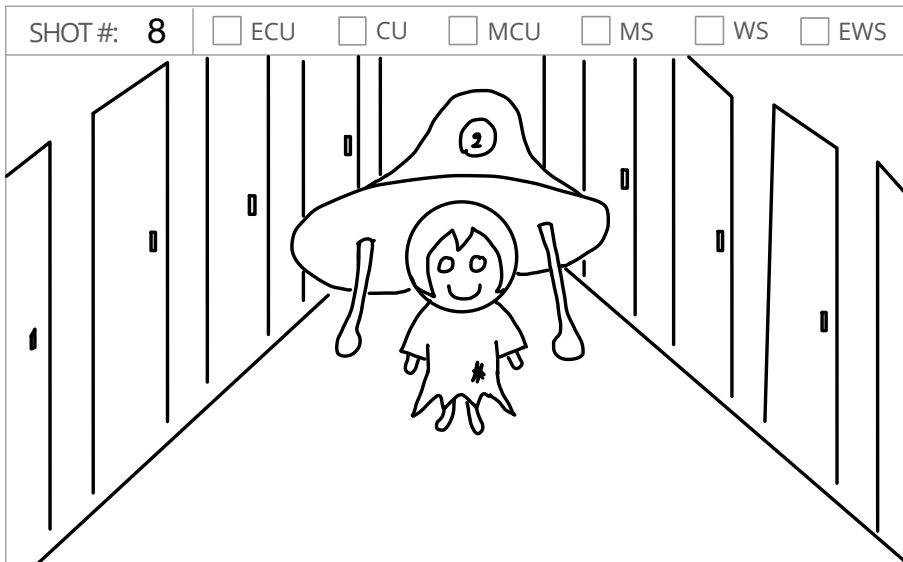

But as she keep walking, she will find the dark one room and an activated computer is placed in the room, The player can open the door to enter that room.

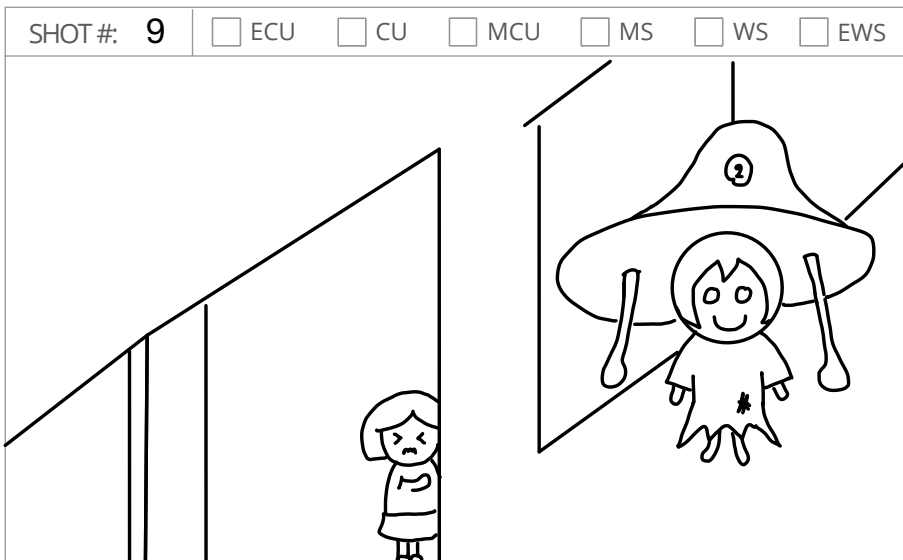

The player can press button to look at the computer, and can see that the picture shown is a surveillance camera of this floor, in camera shown as a cartoon theme. If the player look carefully, she will see that there are scraps of paper falling at some points in each room of the floor.

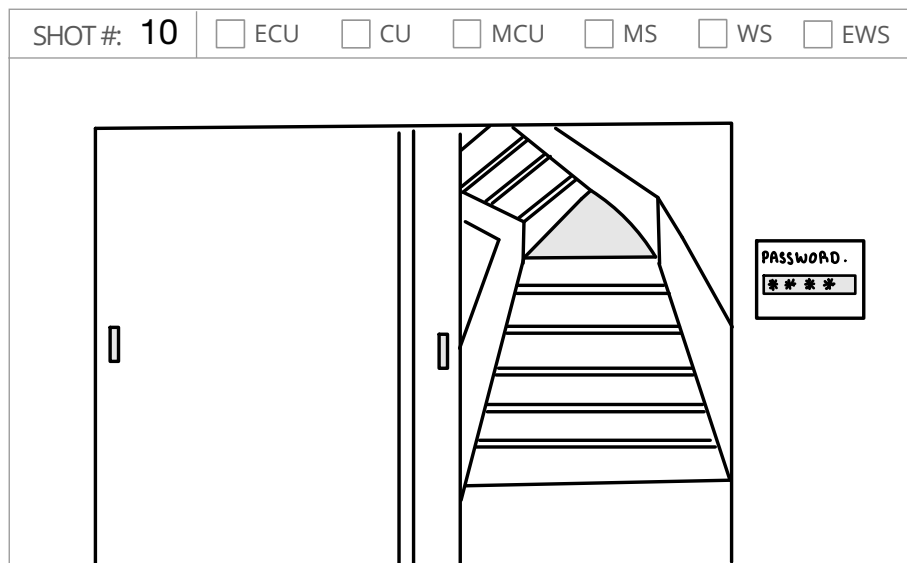

From the cartoonish in the computer will know
that it is a puzzle that requires the player to find
the answer by finding all 4 pieces of paper, each
piece of paper has a torn shape. It may fall under
the table or hide it.

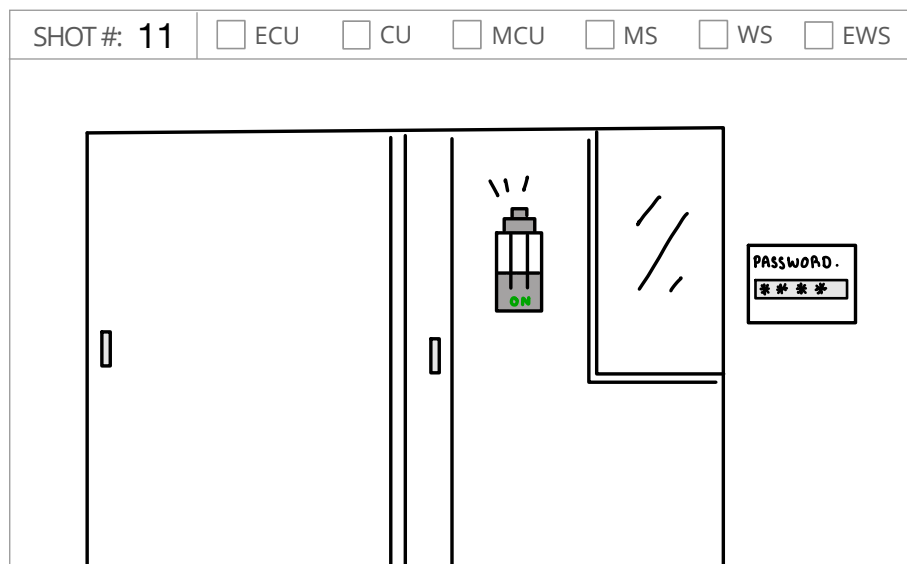

When player solve puzzles for a while, she will
find that A monster came out. There are 3 levels
of monsters coming out one by one every 5
minutes and walking around the floor for 30
seconds to disappear.

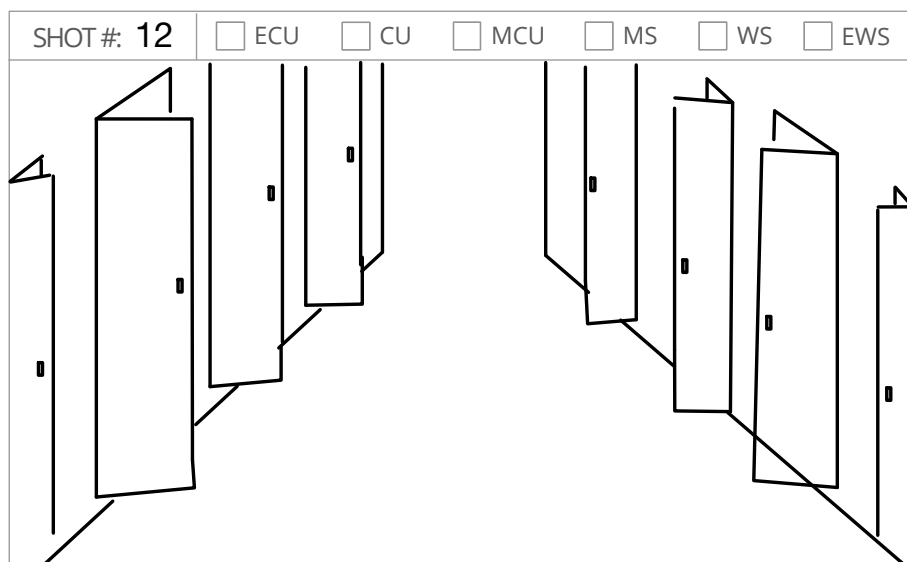

The player will have to hide in different spots, so
that the monster can't see her otherwise she will
be killed by the monster, if she get caught. And
game over.

When the player completes the finding all papers, it will become the password of the door that. To be able to go up to the next floor, it will have different puzzles on each floors and the monsters will come out on every floor as before, if going up to the next floor will not be able to go back down, because the door is locked and cannot be opened.

The player must survive and solve all the puzzles in order to reach the 4th floor. Because the top floor has a emergency power cutout to cut all the lights and player can open the door in the whole building and All monsters will dies. By The room with the a emergency power cutout will can't open the door. You have to solve the puzzle and enter the password to open the door first as well.

When the player has finished turn off emergency power cutout, All gates can be activated and the monsters will disappear. The player will be able to walk around the building freely, and have won the game.
